- x Workforce Report ±To be produced annually; last report dated January 2018. This report provides information regarding the demographics and characteristics of current workers, as well as a variety of indicators of workforce planning and development, using fiscal y (Far) (July 1 ±June 30) data.
- x & K L O G U Hgerfcy Coord/hatibgcouncil Report Current and produced monthly his report details referral and service activity for CSOC. It also includes demographics, referral sources, reasons resolutions and services provided.
- x New Jersey Youth Source Spot ±Ongoing and updated as relevanthis website offers the latest resources, opportunities, news and events for young people. This site includes a list of current Youth Advisory Boards(YAB), as well as additional resources available in canding and statewide.
- x DCF Needs Assessment Previouslyproduced annuallyLast report datedMarch 2018 During its multi-year needs assessment process. produced annual report on its website and reperditwice annually to the Monitor. The most recentreport, entitled DCF Needs Assessment 20 Report #3 SurveyFindings and Synthesis updates interim findings identify the resources needed to serve families with children at risk for entering out-home placement those already in placement. SEP requires aports to evaluate the need for additional placements and service eet the needs of children, youth and the families involved with DCF, with each county assessed at least once every three years Going forward, DCF is designing a ne Needs Assessme process and the Monitor will report on the nev1[(S)-3(EP)-2(re)7(quire)5(sr)] TJ ET 5253.-d to sto

x Housing, Employment and Education Status Review for Older Youth Exiting Care

The Monitor collaborated with DCF to review case reconfcts0 youthage 18 to 21who exited case betweenJanuary1 andJune30, 2018 without achieving permanency. The review focused on the housing, education and employment status of these youthings from the review are discussed in Section V.J±Older Youth ±of this report.

x Family Team Meeting Data Review

The Monitor collaborated with DCF treview experiences of 80 children and families to verify instances in which workers determined that Family Team Meetings (FTMs) were not required parents were unavailable, missing declined the meeting CF and the Monitor eviewed all cases of documented exceptions to the FTM requirement in each month of the monitoring Fertber discussion of current performance the semeasure is included in Section V.B±Family Team Meetings ±of this report.

x Visits Data Review

The Monitorcollaboratedwith DCF to review case records of 51 children from Marchand April 2018 in which workers documented at caseworker contacts with pents with a reunification goal SEP IV.F.28) were not required because a parent was unavailable or there were other circumstances outsid of their control that prevented visits from occurring the Monitor also collaborated with DCF to review records of 234 children from April, May and Jun 2018 in which workers documented that is in the leave of their control to the circumstances outside of their control to review a sibling was lateral to the circumstances outside of their control to prevented a visit

FTMs Held After 12 Months in Placement with a Goal Other than Reunification

Quantitative or Qualitative Measure	19. Subsequent Family Team Meetings after 12 Morftos: all children in placement with a goal other than reunification, the number/percent who hat least two FTMs each year.
Performance Target	After the first 12 months of a child being in care, for those children with a goal other than reunification, 90% shall have at least two FTMs each year.

Performance as of June 30, 2018:

In June 2018165 (96%)of 172applicable children in outsf-homeplacement with a permanency goal other than reunification had two or more FTMs after 12 metrormance from January 1 to June 30, 2018 ranged from a low of 91 percent to a high of 98 percent. this measure, the Monitor verified monthly data frish SPIRIT for the 21 applicable cases to determine whether exceptions to FTM policy were appropriately applied and documented. the first time this monitoring period, DCF took a primary rolehis data validation process.

DCF exceeded the EPstandard on this measure erach month of the monitoring period.

⁷⁹ Monthly performance for this measure is as follows: January, 100%; February, 93%; March, 93%; April, 94% May, June, 95%. Reported performance accounts for valid exceptions to the FTM requirement.

⁸⁰ Based on a review of asix cases, the Monitor excluded valid exceptions to the FTM requirement from the universe of cases. For examplein June 2018therewere 20 children who had been care for at least 24 months whad a goal of reunification. The Monitor determine that inone case the worker had appropriately determined that the pare declined the FTM or was otherwise unavailable he Monitor excluded that case making the universe of applicable cases hildren.

⁸¹ Children eligible for Measure 19 are all children who have been in care for at least 12 months who entered care in the month specified each year and have a goal other than reunification wample, in June 2018, a combined total of 173 children entered care in June 2017, June 2016, June 2015, etc. and are still in placement with a goal other than reunification. Cobratical care in whether at least two FTMs were held for these children washin the most recent year after 12 months in care.

⁸² Monthly performance is as follows: January, 98%; February, 96%; March, 96%; April, 91%; MayJ@1@26%.Reported performance accounts for valid exceptions to the FTM requirements.

⁶³ Based on aeview of all 21 cases, the Monitor excluded valid exceptions to the FTM requirement from the universe of cases. For example, in June 2018 there were 173 children who had been in care after 12 months with a goal other than reunification. The Monitor determined that in one case, the worker had appropriately determined that the parent declined the FTM or was otherwise unavailable. The Monitor excluded that caseaking the universe of applicable cases 172 children.

Timeliness of Case Planning Every Six Months

Performance as of une 30, 2018

In June, 2018, 98 percent of case plans had been modified no less frequently than every six months. Performance from January 1 to June 30, 2018 ranged from \$20 \text{\$\phi\$} \text{\$\ph

Quality of Case Plans

DCF policy and the SEP require that families be involved in case planning, that plans are appropriate and individualized to the circumstances of the child or youth and family and that there is oversight of plan implementation to ensure case goals are depletes are modified when necessary.

Results from two QR indicators hild and family planning process dtracking and adjusting are used to assess performance on this measure. Cases rated as acceptable demonstrate that child or youth and family needs addressed in the case plan, appropriate family members were included in the development of the plan and interventions are being tracked and adjusted when necessary The QR process and protocol are discussed in detail in Section this report.

This QR measure is reported by the Monitor on an annual basis. The Monitor will report on the data for Quality of Case Plans for the periladuary 1through December 31, 2018 in the next monitoring report.

⁸⁶ Monthly performance on this measure is as follows: March 94%; February, 94%; March 94

E. VISITS

The SEP includes six performance measures related tos. Wast of January 2018, fourneasures were designated a Outcomes To Be Maintaine dincluding asseworker contacts with children newly placed or after a placement chat (GEP III.F.9); caseworker contacts with children in ongoing placement (SEP III.F.10); and pare to thild weekly and bi-weekly visits (SEP IV.F.29 and IV.F.30). The remaining wo measure, scaseworker contacts with pare to the the goal is reunification (SEP IV.F.28) and sibling visits (SEP IV.3F), have not been met and are designated a Outcomes To Be Achieved Performance for als ix measures during the current monitoring period are discussed below.

Visits between Children in Custody and their Parents

Month

Quantitative or Qualitative Measure	29. Weekly Visitsbetween Children in Custody and Their PareNtsmber/percent of children who have weekly visits with their parents when the permanency is reunification unless court order prohibits or regulates visits or there is a supervisory approvent a decision to cancel a visit because it is physically or psychologically harmful to a child.
Final Target	60% of children in custody with a return home goal will have appeirs on visit with their parent(s) or other legally responsible family member at least weekly, exclusions where a court order prohibits or regulates visits or there is a supervisory approval of a decision to cancel a visit because it is physically or psychologically harmful to a child.

Performance as of une 30, 2018:

In June 2018, an average of 1,759% 2,225 applicable childrenvisited weekly with their parents during the mont between January and June 2018, a monthly range spercent 82

Performance

Target (90%)

F. PLACEMENT

Stable and appropriate placement bildren in foster care isssentiato safety and wellbeing, and maintenance diamily bonds. DCF policy requires siblings to be placed together whenever possible, and that children experience as few placement changes as possible which in out home placement. There are fiperformance measures related to placement January 218, all had been previously met and wellesignated a utcomes o Be Maintainedsibling placements of two to three children (SEP IV.G.32); sibling placements and recruitment of placements four or more children (SEP IV.G.33); placement stability or children in care between 13 an 24 months (SEP IV.G.36); and placement stability for children in care 12 months or less (SEP IV.G.35). Il of these measures, except recruitment of placements to accommodate large sibling groups, are assessed through thing it cohort data on an annual basis.

7 K H V W D W H ¶ With Srespect to place mental stability not newly assessed in this retreast performance for the stability standards measured innually at the end of each calendar year. Updated data will be icluded in the next monitoring report when these data are available. most recent performance data can be found in Table 1B of this report.

Recruitment of Placements for Sibling Groups of Four or More

Quantitative or Qualitative Measure	34. Recruitmentof Placements for Sibling Groups of Four or More
Performance Target	DCF will continue to recruit for resource homes capable of serving sibling ground four or more.

Performance as of June 30, 2018:

DCF recruitment staff continuate develop recruitment plans to guide their work for CY 2018. These plans assist staff to determine local needs, including the need for families willing to care for large sibling groups, adolescents achiddren with advanced medical needs. Recruitment efforts include strategically placing advertisements in local publications in online websites, blogs and local sports facilities in an effort to reach potential resource families.

During this monitoring period, DCF continued to host recruitment and tirent events for families willing and able to accommodate sege sibling groups and adolescents example, DCF hosted conference in amount and adolescent to provide them with skittsgarding fostering large sibling groups resented over 50 teators in an Englewood Cliffs school about the need for families willing to care for adolescents, and plantine advertisements in Portuguese and Hispanic newspapers in Essex County.

As of June 30, 201,8DCF had a total of large capacity siblings in Best Placement Settings (SIBS) homes eight fewer than at the end of December 2010 Turing the monitoring period, DCF recruted 23 new SIBS homest hree of which can accommodate five or more childrend 20 of which caraccommodate four childrend each country.

G. MALTREATMENT OF CHILD REN AND YOUTH

A fundamental responsibility of DCF essuring theong-termsafety of children who are receiving or have received services from &P. This responsibility includes ensuring the fety of children who are placed in resour and illy homesand congregate facilities, and preventing future maltreatment.

There are four SEP performance measures related to maltreatment of children and youth. As of January 201,8three measures were desited as Outcomes Be Maintainedabuse and

I. CHILD HEALTH UNITS

K. SERVICES TO SUPPORT TRANSITION

While involved with DCF, childrenyouth and families oftenace transitions, including changes in family relationships, living arrangements, service providers or schools. Some transitions are more critical than others but all require recognition and planning in order to be smooth and successful. DCF uses the allitative Review (QR) process to measure case practice that supports families to make successful transitions ection IV.J of the SEP requires that 80 percent of cases be rated acceptable the successful ransitions indicator. This measure is designated as an Outcome To Be Achieved. The QR process and protocol are discussed in detail in Section IV.N this report.

Services to SupportTransition

Quantitative or Qualitative Measure	44. <u>Services to Support Transiti</u> p B CF will provide services and supports to families to support and reserve successful transitions.
Performance Target	80% of cases will be plans rated acceptable for supportingttomssas measured by the QualitativeReview (QR).

This QR measure is reported by the Monitor on an annual basis. The Monitor will report on the data for Services to Support Transition from January 1 to December 31, 2018 in the next monitoring report.

L. CASELOADS

2 Q H R I W K H H D U O \ V X F Fwlads/re/dthcliving Redsell &a)d to let which with children, youth and families that was expected of Chesseload compliance is measured by assessing caseloads for individual caseworkers in each of the V \ V W H P ¶ V I X Q Fntake, Rendered Poply. And the properties of the last office standards for each CP&P Local Office able 2 summarizes K K H 6 (3 ¶ V F D V H O R D G V W D Q G D U C workers.

The SEP includes eight performance measures related to case and sanuary 2018, Il are designated as Outcomes Be Maintained These eight measures include ake office caseloads (SEP IV.E.24); Intake individual worker caseloa (SEP IV.E.25); Adoption office caseloads (SEP IV.E.26); Adoption individual worker caseloa (SEP IV.E.27); Permanency office caseload (SEP III.B.4); Permanency individual worker caselo (SEP III.B.5); IAIU investigators individual caseloa (SEP III.B.3); and supervisory/worker rat (SEP III.B.2). Performance for all eight measures during the currentitoring period are discussed below.

Table 2: CP&P Individual Worker Caseload Standards

Caseworker Function	Responsibility	Individual Caseload Standard (SEP IV.E and III.B)
---------------------	----------------	--

Intake

Verifying Worker Caseloads

DCF caseload data are collected and analyzed through NJ SPIRIT and SafeMAssures. previous monitoring periods, the Monitor verified caseload data supplied by DCF by conducting telephone interviews with randomly selected workers acrosstalte and inquiring about caseloads during site visits and when doing QR revietnes formal caseload verification process included workers in all areas in which the SEP establishes caseload standards: Intake, Permanency and AdoptioA. sample of 100 worters of were selected from all active workers in the months of May and June 2018 or the past several years, the Monitor has weighted the sample with Intake workers to examine in more depth the impact of shared cases between Intake and Permanency workerAll 100 workers were called and information was collected from 49 workers (50% of the eligible sample)? Among the 49 workers who participated in the caseload verification interviews, 20 were Intake workers, eight were Permanency workers, nine were Adoption workers and 12 were trainees.

During the interviews, the Monitor asked each caseworker whether his currhent caseload met caseload standards ring the months of May and June 2018 ponses were compared to the caseload information from NJ SPIRIT and SafeMeasures for identified to during the same period.

Intake

The SEP Intake caseload standarthat no worker should havenore than eight new case assignments per month, no more than 12 optienary cases at any one time and no Intake worker with 12 or more operimary cases can be assigned more than two secondary assignments per month. In January 2017, DCF implemented a new methodology for tracking and reporting the SEP Intake caseload standard to more clearly communicate to staff and to streamline monitoring and reporting &) ¶ V Q H Z P H W K R G R O R J \ F D S W X U H V V H F D V V L J Q P H Q W V R Q W K H , Q W D N H Z R U N H U ¶ V P R Q W K O \ F D V H O F caseloads as follows: no more than eight new assignments per month; no more than 12 cases assigned as primary cases agriments at any one time; and no more than 14 cases at any one time, including both primary and secondary case assignments. The methodology for the standard of no more than eight new case assignments per month, including secondary assignments, remains uphanged.

DCF continues to implement internal caseload verification process which serves as a quality assurance method where Intake workers are interviewed and their reported caseloads are compared to their caseloads as reported in Safetimes. During the period of January through June 2018DCF interviewed a random ple of 213 Intake workers from 26cal Offices throughout the state CF verified that 91 percent (193 of 210f Intake worker caseloads were accurately reflected in SafeMeasures. Fings I URP '&) ¶ V FDVHORDG is HULILFDWL

Progress of the New Jersey Department of Children and Families Monitoring Period XXII Report for Charlie and Nadine H. Wurphy

¹⁰¹ The new caseload verification methodology consistsoofducting a survey of random selection of 50 workers per selected months throughout the monitoring peritholat includesquestions about the our theorem and workload 102 Two workes

The Monitor reviewed monthly Local Office data on secondary assignments and found that on average, each Intake worker was assignmed secondary case any given time during the period reviewed. The Monitoriso found that an average of 24 percent of Intake workers received two or more secondary case assignments and an average of six percent of Intake workers received three or more secondary assignmenth month during the monitoring period. Specifically, in the month of June 20,1246 (23%)Intake workers received two or more secondary intake assignments and 5% (antake workers received three or more secondary intake assignments.

During phone interviews with caseworkers, Monitor staff inquired about the prevalence of secondary assignments and their impact on workload. Intake workers were asked about the frequency of secondary assignments with these assignments fectworkload and by they are

Table 4: Percentageof CP&P Investigations Assigned to NorCaseload Carrying Staff by Month (January ±June 2018)104

Month	Total Investigations Received in the Month	Number and Percentage of Investigations Assigned to Non-Case Carrying Staff	
January	6,867	72	1%
February	6,306	52	1%
March	6,393	77	1%

Adoption

¹⁰⁴ Data are provided for investigations assigned within five days of intake receipt date and do not reflect additional tassignmen to an investigation aftethefirst five days. DCF conducted a review of assignments tecaseload carrying staff in NJ SPIIRI and found that some investigations had because gined to caseload carrying workers after the initial five days. As a result, there is potential for the percentage of investigations assigned to assigned to be lower than six percent.

¹⁰⁵ This includes Permanencycloption, Impact and Advocacye@ter caseload carrying workers.

Performance as of une 30, 2018

DCF data show 100 percent of individual workers maintained the IAIU caseload standard for the period of January through June 2018

Supervisory Ratio

Quantitative or Qualitative Measure

2. <u>Supervisor/Worker Ratid</u>:ocal Offices shall have sufficient supervisory staff to maintain a five worker to one supervisor ration.

Performance as of June 30, 2018

Performance data JanuarythroughJune 2018 how that 100 percent of CP%Local Offices had sufficient supervisors to maintain ratios of five workers to one supervisor.

M. DEPUTY ATTORNEYS GENERAL STAFFING

Quantitative or Qualitative Measure	 DAsG Staffing The State will maintain adequate DAsG staff potions and ke positions filled.
Performance Target	DCF will maintain adequate staffing levels at the DAsG office.

Performance as of June 30, 2018

As of June 30, 2018, 1325 eputy Attorneys General (DAs@) aff positions assigned to work with DCF were filled. Of those, nine AsG were on full time leave Thus, therewere a total of 126 (93%) available DAsG. DCF reports that in addition to these positions, DAsG outside of the DCF Practice Group have dedicated some of their time to DCF mat@Fsc@ntinues to meet the SEP standard for this measure.
