

HAZARDOUS WASTE CONTAINER/STORAGE AREA INSPECTION LOG

Location _____

ITEM	Date of Inspection ¹										
Are containers in good condition, not leaking and closed when not in use? ²											
Are containers marked "Hazardous Waste," dated with legible labels that are visible? ²											
Are incompatible wastes segregated properly? ³											
Are storage dates within appropriate time period? ⁴											
Appropriate spill control present? ⁵											
Signature of inspector											
Corrective action(s) taken ²											

¹Inspections must be performed weekly and the Inspection Log must be retained for a period of three years.

²If all conditions are OK place a check in that section. If conditions were not OK make a note in that section and describe corrective action taken (use additional sheets as necessary).

³Consult MSDS for proper storage conditions.

⁴Stockton is currently a SQG; hazardous waste must not be stored for longer than 180 days or 6 months

⁵Containment system must have sufficient capacity to contain 10% of the volume of containers or the volume of the largest container, whichever is greater.
