

**IF YOU DON'T
PICK UP AFTER YOUR PET,
IT MIGHT AS WELL
POOP IN THE RIVER.**

**Rain washes pollutants into storm drains which
flows directly into our streams, lakes,
rivers and the ocean.
So what can you do?**

www.cleanwaterNJ.org

WHY SHOULD YOU CARE ABOUT CLEAN WATER?

State that the greatest threat to New Jersey's clean water is climate change. Climate change affects water quality, availability, and distribution, health and habitat, and biodiversity. Rainfall is becoming more frequent, and droughts are becoming more frequent, the direct result of climate change.

Did you know more than 60 percent of water pollution comes from things like motor oil, fertilizers, pet waste, and
