

# IDEA Survey of Faculty, 2016

Carra Leah Hood, Assistant Provost

Dennis Fotia, Assistant Director of E Learning and  
IDEA Administrative Liaison

Douglas Harvey, Director of the Institute for Faculty Development

Judith Vogel, Associate Professor of Mathematics and  
IDEA Faculty Liaison

# 2012 Survey

- Faculty Senate

# 2012 Survey: Recommendations

- Continue using the IDEA instrument to provide data for teaching portfolios.
- The IDEA data should contribute no more than 30% of the teaching portfolio.
- Increase knowledge of how to interpret IDEA statistics by increasing participation by faculty and administrators in IFD workshops.
- Review the IDEA instrument again in five years.

# 2016 Survey: Method

The survey team created and administered a survey sent to all 612 teaching faculty this fall that:

- Repeated questions on the 2012 survey.
- Added questions related to:
  - Moving to fully online administration.
  - Planned changes to IDEA objectives.
  - Two new, shorter IDEA instruments becoming available.
- 232 responses, a 38% response rate.

# 2016 Survey: Results

IDEA instrument provides a useful component  
for teaching portfolios

	2012 (N= 190)	2016 (N= 232)
Agree	34% (N = 65)	68% (N = 158)
Neutral	30% (N = 57)	12% (N = 28)
Disagree	36% (N = 68)	20% (N = 46)

# 2016 Survey: Online Delivery

---

I am not opposed to online delivery of surveys;  
however, I am concerned that online delivery of  
surveys will result in lower response rates.

---

I support online delivery of surveys because online  
delivery allows students greater access and  
opportunity in access

---

The IDEA Center plans to move to fully online delivery and reporting of its survey instrument in 2016. What are your concerns with fully online administration of surveys? Please select one of the following choices.

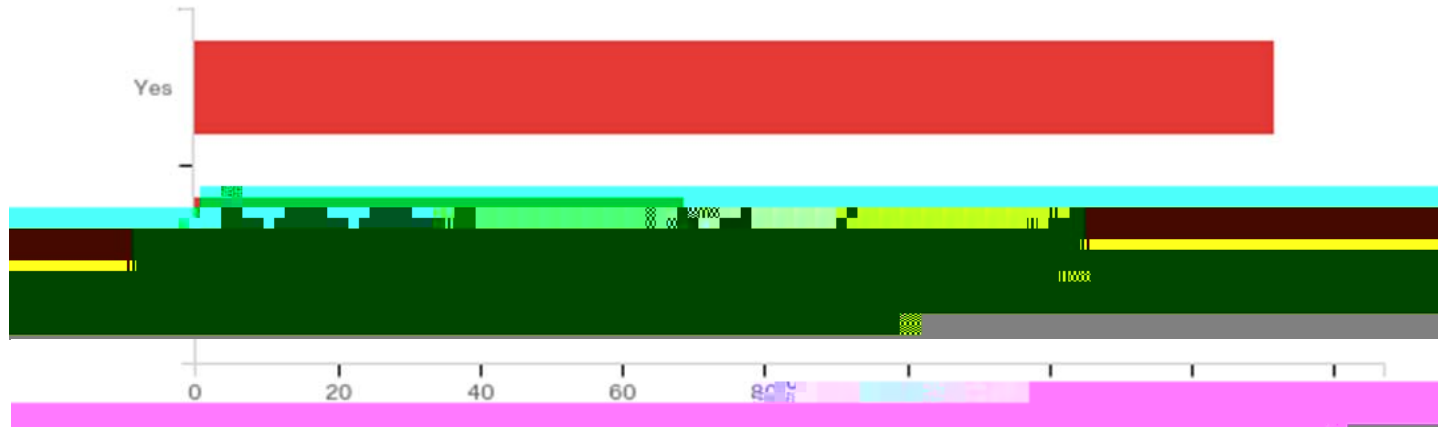

# 2016 Survey: Online Delivery

Answer	Percentage	Count
I am not opposed to online delivery of surveys; however, I am concerned that online delivery of surveys will result in lower response rates.	45.85%	105
I support online delivery of surveys because online delivery allows students greater access and opportunity to take surveys.	13.54%	31
Although I would rather not have online survey delivery, students might prefer it.	2.62%	6
I would support online delivery of surveys if it was possible to deliver survey prompts in Blackboard courses, rather than through emails.	6.11%	14
I would support online delivery of surveys in a face to face environment.	12.23%	28
I absolutely disapprove of online delivery of surveys under all circumstances.		

# 2016 Survey: F2F Administration

If you had the ability to administer the IDEA survey online but in a face to face environment, would you consider that comparable to paper survey administration?

# Survey Results: F2F Administration Comments

- Inconvenient and time consuming. (7)
- Comparable if administered during class time. (4)
- Concerns for reduction in response rates if time consuming. (7)

# 2016 Survey: New Objectives

IDEA 2 will include additional learning objectives for “diverse perspectives and global awareness,” “ethical reasoning and decision making,” “civic engagement,” and “quantitative

# 2016 Survey: New Objectives

Answer	Percentage	Count
Yes	66.08%	150
No	30.40%	69
Total	100%	227

# Survey Results: New Objectives Comments

- Not relevant and/or measurable to my

# 2016 Survey: Learning vs. Teaching

Answer	Percentage	Count
Yes	62.50%	140
No	34.38%	77
Total	100%	224

# 2016 Survey: Shorter Instrument

Answer	Percentage	Count
Learning Essentials Instrument	56.08%	83
Teaching Essentials Instrument	34.46%	51
No Instrument Preference	9.46%	14
Total	100%	148

# Survey Results: Shorter Instrument Comments

- The focus should be on student learning. (20)
- The focus should be on teaching. (10)
- Utilize either instrument based on need. (8)
- Students may not be able to accurately assess either. (6)
- Need to see instruments. (4)

# 2016 Survey: Small Class

Would you

# 2016 Survey: Small Class

Answer	Percentage	Count
Yes	68.72%	145
No	23.70%	50
Total	100%	211

# Survey Results: Small

# Next Steps: Circulation of Results

- Report to Faculty Senate
- Report to Provost Council
- Further dissemination options

Sending the survey results to the full faculty.

Posting the results to the Academic Assessment website.

Sharing the results with additional campus populations, such as students.

# Next Steps: Pilot

To test the effectiveness of online delivery methods, the survey team plans to conduct a
