strengthen the Transportation Trust Fund, for instance. More recently, he is remembered for the Bridgegate scandal which tanked his approval ratings. He has usually contracted significantly to his poor showings nationally.

While President Biden continues to insist he'll seek a second term, there is a concern within the Democratic Party over whether an 82-year-old Biden, with a number of apparent cognitive issues, can withstand the rigors of a second term.

Even should he be persuaded to stand down, the possibility of a Biden administration is a cold comfort. Nor, for that matter, is the prospect of a chaotic and potentially self-defeating multi-candidate election.

In the early stages, Republican candidates – especially Trump – will seize what the party clearly sees as a key objective: control of Congress and the White House.

Achieving their goal will elude them for the foreseeable future. Moving away from him is the only viable alternative to lay a decisive role.

It adds that he will not be the best choice for an infrastructure program.

He does, though, possess valuable experience in confronting.

His "sure" response to the question about his role in the conversation.

What most certainly is the process of decision-making. Christewill.
