#	Answer	%	Count
1	Democrat	31%	198
2	Republican	24%	152
3	Independent	28%	179
4	Something else	12%	74
5			

Methodology

The poll of New Jersey adults was conducted by the Stockton Polling Institute of the William J. Hughes Center for Public Policy from October 9-18, 2023. Stockton University students texted cell phones with invitations to take the survey online and Opinion Services supplemented the dialing portion of the fieldwork, which consisted of cell and landline telephone calls. Overall, 92% of interviews were conducted on cell phones and 8% on landline phones. In terms of mode, 79% were reached via dialing and 21% were reached via text-to-web. A total of 630 New Jersey adult residents were interviewed. Both cell and landline samples consisted of New Jersey voter list and random digit dialing (RDD) sample from MSG. Data are weighted based on U.S. Census Bureau ACS 2021 data for New Jersey on variables of age, race, education level, and sex. The poll's margin of error is +/- 3.9 percentage points at a 95% confidence level. MOE is higher for subsets.
