The following is a **suggested** plan of study for completion of this degree program.

The **goal of a Degree Map** is to ensure that students graduate with no more than 128 credits and in four years.

All students should speak with their preceptor about their academic programs.

Students are encouraged to take overload and Summer courses to facilitate their progress towards graduation as necessary.

Transfer students may not need to take all courses in the plan; they should consult with an academic advisor.
