Please provide a summary of the project and your experience.

The project supplied dorm room packages for incoming Stockton students without parental support and who are coming out of disadvantaged situations. To receive the grant for bedding, the students were screened through the Office of Financial Aid and the grant application was forwarded on our behalf. In FY 24, 11 incoming Stockton students who fit the grant criteria received full bedding for their rooms.

The process followed the proposed work flow and was a smooth experience for the staff and students involved

Please describe the results of your project and compare them to your original expectation.48/5\$p79D 25L
