How will this project sustain itself after Compass Funding concludes? (You only need to answer this question if you are seeking support beyond a one-time project or event)

Future funding for the SEAS Program will come from several community sources. Beginning in the summer of 2022, the Project leader and the Project Partners will begin to look for and identify individuals and businesses that can sponsor a student. The sponsor will defray the students cost of attending the SEAS Program. We will initially look for student sponsors in the following areas:

Sponsors outside of the University:
1. Parents of students that have attended SEAS in the past.
2. Local community businesses and organization.
3. National Corporations and businesses.

We will also explore on campus sources to brainstorm other methods of sponsorship of students. These sources may include, but will not be limited to, programs that have been successful in sponsoring students to attend summer programs and the Office of Development.
